

A\$160 MILLION INDICATIVE TERM SHEET FOR CONCESSIONAL DEBT FROM THE NORTHERN AUSTRALIA INFRASTRUCTURE FACILITY

Verdant Minerals Ltd (VML.ASX) (“Verdant” or “the Company”) today announces the Northern Australia Infrastructure Facility (“NAIF”) Board has provided a non-binding indicative term sheet for a long-term concessional NAIF debt facility for up to A\$160 million (“**Indicative Term Sheet**”) for the Ammaroo Phosphate Project (“the **Project**”).

The NAIF Indicative Term Sheet provides for a secured, long tenor loan of up to A\$160m for the Project, and is subject to a number of conditions and customary terms for a project financing term sheet, including:

- Execution of offtake contracts with lender approved offtakers, covering the contracted offtake volumes, with a price mechanism to support forecast revenues over the projects initial operating phase;
- Finalising terms for senior debt funding for the remainder of the project debt;
- Securing the balance of equity funding from acceptable equity partners;
- Detailed due diligence on a range of project matters;
- Concluding a cost benefit analysis in accordance with the provisions of the NAIF Investment Mandate, which will be important in determining the level of concessionality that NAIF can offer the Project;
- Evidence that all relevant environmental, native title and regulatory approvals and authorisations required to undertake the Project are in place;
- Negotiation and execution of project and facility documentation; and
- Final NAIF credit approval and Board Investment Decision.

The Company is continuing to progress each of the Indicative Term Sheet conditions alongside other project workstreams with the objective of reaching a final investment decision by NAIF by mid-2019. Verdant Minerals will provide further updates to the ASX as each milestone is achieved going forward.

In commenting on today’s announcement, Chris Tziolis, Managing Director of Verdant Minerals said:

“This is a significant milestone for the project and will assist in facilitating and enhancing ongoing discussions with providers of commercial debt, potential customers and development partners. Verdant Minerals is appreciative of the opportunity to work with NAIF on the development of the Ammaroo Phosphate Project. The issuance of the Indicative Term Sheet and NAIF’s support to provide a long tenure concessional loan, subject to meeting the conditions precedent, will secure a significant portion of the Project’s debt funding.”

VRM – Indicative Term Sheet NAIF

We wish to thank NAIF for their indicative support and we look forward to working with them over the coming months as we work to meet the conditions in the Indicative Term Sheet and move towards a final investment decision”.

Ms Laurie Walker, CEO of NAIF, also commenting on today’s announcement said:

“NAIF’s indication of this support is to assist Verdant to advance its discussions with other Project counterparties and to satisfy conditions required to secure NAIF finance. This is a demonstration of how NAIF can work with stakeholders to help them understand how its concessional financing can support the development of a project which has the potential to provide substantial benefits to Northern Australia and the Northern Territory.”
